

Door / Window Magnetic

Feature:

Detection of the door / window open/close status through magnetic device can give you an idea of the home of door, window switch, can also be combined with alarm linkage set to achieve the anti-theft function.

Specification:

Detection sensitivity : 3cm
Tamper protection: yes
Wireless transmission standard: IEEE802.15.4
Wireless frequency range: 2.4~2.483GHz
Wireless data rate: 250kbps
Wireless transmission of power: 18dBm
Wireless transmission of distance: 150M (no screen transmission)
Antenna type: printed antenna
Amplification factor of the antenna: 2dBi
Support web form: Star/Tree
